

May 9, 2013

Welcome to the website for the Jefferson Circuit Court Commissioner's Office. This site is offered for your benefit, to assist you in understanding the Jefferson County Circuit Court Commissioner's Office procedures. It contains a number of resources for parties and potential purchasers.

For lenders, the website includes form judgments and orders, some of which are contained in spreadsheets that perform calculations. For borrowers, the website contains links to debtor assistance resources, reference telephone numbers, and frequently asked questions. For potential purchasers, the website contains a list of upcoming properties, results, and an explanation of the proceedings.

One resource for everyone is a reference manual called the Jefferson Circuit Court Lien Enforcement Guidelines. The manual incorporates the issues the Jefferson Circuit Court Commissioners will check to make a recommendation to the court and seeks to address questions that purchasers and defendants frequently have about the process. However, the manual is not intended as a legal treatise.

If you have not provided your email address, and would like to be notified of updates, please be sure to give your information to the receptionist, who may be reached at (502) 574-5934. If you have a question about whether you have the most recent version, note that you will find a "revised" date in the lower left hand corner. As always, if you have any questions about the process, you may call any of the Commissioners with your inquiries. This document is not subject to copyright and may be copied and used without restrictions.

Sincerely,

Edith F. Halbleib
Jefferson Circuit Court Master Commissioner
